**Evaluation Criteria
Grant Research Program - 2009**

Project Title	
Principal Investigator	
Institution	
Name of the Reviewer	
Institution	
Specialty	

Kindly, indicate whether you are involved in a related research subject :

I-Quality of the research proposal

- 1- Please, comment on the hypothesis and objectives presentation and description; the clarity of articulation, evidence of sound knowledge of literature and background information, awareness of previous and alternative approaches of the problem and adequacy of specific aims with the hypothesis.
- 2- Please, comment on the originality of the research; as to the exploration of a creative concept, to innovation in approach, to application of a previously tested hypothesis or modification of an existing hypothesis.

II- Research Plan and Feasibility

- 1- Please, comment on the availability and capacity of the principal investigator and other collaborators to carry the project.
- 2 Please, comment on the adequacy of available or obtained instrumentations and technical support with the needs and aims of the project.
- 3- Please, comment on the adequacy and justification of the requested duration for the proposed activities, on the description of the experimental design, on the originality of techniques and procedures, and on the adequacy of the experimental protocols to reach declared hypothesis.
- 4- Please, elaborate on how properly are issues related to morals, ethics, public health, security, human and animal wellbeing and intellectual property addressed.

III- Budget

- 1- Please, comment whether the required items in the proposed budget are within the declared experimental design and whether the budget is realistically justified.

IV- Benefits of Outcomes

- 1- Please, comment on the potential application and utilization of the expected results with respect to publish ability, socio-economic returns, advancement of knowledge or potential patent or invention.

V- Over all Comments

- 1- Please, provide your over all evaluation, comments and recommendations.
