

Republic of Lebanon

NATIONAL COUNCIL FOR SCIENTIFIC RESEARCH

Postponement

National Seminar on a
New Science, Technology and Innovation Policy

In view of the current situation prevailing in the country following the hideous assassination of late Prime Minister Rafic Hariri and upon consultation with our international partners, it has been commonly agreed to postpone the National Seminar “New Science, Technology and Innovation Policy in Lebanon” originally scheduled on February 25, to a later date which will be communicated within a week.

We share your concern to carry out with the STIP program and hope that forthcoming conditions will favor the implementation of such an important policy for the scientific community and the Lebanese economy at large.

Thanking you for your support and concern, we remain,

Sincerely Yours

Secretary General
Mouin Hamzé
